

INTEGRITY • EXPERTISE • SOLUTIONS

HAULING : COMMUNICATIONS INFRASTRUCTURE

Our hauling capacity ranges from:

- > Telecommunication Cabling – 6 to 2000+ fibre cable
- > Electrical cabling – single/3 phase and HV power cable
- > Communications Cabling– rail signalling, ITS and data cabling

Our zero tension hauling technology guarantees client assets perform to their design specifications and are protected throughout installation.

ASTELEC Group equipment commonly achieve a hauling range of 1.5-3.0Km (Typical) per day per crew.

Complimenting traditional hauling techniques are our extensive range of pneumatic and mechanical installation practices, in addition to our certified and skilled operators delivering low risk installation solutions for our clients.

Accompanied by our NDD and directional drilling solutions **ASTELEC Group** can offer fast and reliable infrastructure deployment for all your cabling needs.

- > Pit and Pipe installation Directional
- > Drilling
- > Non Destructive Digging (NDD) Licensed
- > Asbestos removal
